

# DNREC launches Environmental Perspectives, a new interactive website featuring data-driven storytelling

**DOVER** – The Delaware Department of Natural Resources and Environmental Control (DNREC) has launched a new interactive website feature called [Environmental Perspectives](#), which uses a data-driven storytelling approach with themed stories to provide readers with an interactive platform to explore the Department's work on critical environmental issues.

The first eight stories touch on a variety of DNREC's efforts:

- [The Horseshoe Crab: A Keystone Species](#)
- [Cleaner Air Delaware: Air Quality Monitoring](#)
- [Working Together: WATAR](#)
- [Marine Debris: Adrift at Sea](#)
- [Wetlands: Wildly Beneficial](#)
- [Delaware Beaches: Shifting Shores](#)
- [Go Green, Save Green: Rebates, Grants, and Services](#)
- [A Learning Environment: Student Outreach](#)

The public is invited to suggest topics to be included in future Environmental Perspectives stories by [submitting ideas](#) through the website at [dnrec.alpha.delaware.gov/environmental-perspectives](https://dnrec.alpha.delaware.gov/environmental-perspectives).
